Software Developer with 5 years of experience, including 4 years of professional experience, in web development. Specialized in JavaScript and TypeScript, with a strong focus on frontend development using React and backend development with Node.js.

PROFESSIONAL EXPERIENCE

Idealista

Frontend developer (React)

Spain (remote work)

November 2024–Present

- Collaborated with the team to develop the new chat for non-professional users at Idealista from scratch, improving the system's user experience and scalability.
- Collaborated in the final phase of the chat remake for professional users, ensuring high quality and optimal functionality.
- Designed and developed two reusable tools for both chat systems: an efficient media uploader and an integrated image gallery, improving content management and visualization.
- Defined and managed tasks within the team to optimize workflow and coordination throughout the project.

Aktios

Fullstack developer (Next.js + Node.js)

Spain (remote work)

May 2022–April 2024

- Developed an online ferry ticket sales platform that integrates multiple companies, allowing users to compare prices and choose the most affordable option. Collaborated with the tech lead on key architectural decisions to ensure scalability and maintainability.
- Implemented authentication flows across multiple projects.
- Completely rebuilt the backend of an application, from data modeling and architecture to final implementation.
- Built a dashboard for visualizing electricity consumption through interactive charts.
- Developed screens for a mobile application built with Expo (React Native).

Aktios (internship)

Web developer

Spain (remote work)

Abril 2020–Junio 2020

- Developed a showcase e-commerce website for a paint company to highlight their products.
- Supported the development of a project using Spring Boot and Angular, contributing to frontend and backend tasks.

Freelance

Frontend developer

Spain (remote work)

January 2019–December 2019

- Partnered with a company to build websites for various clients, including a gym and a swimming pool construction business, enhancing their digital presence and attracting new customers.
- Created a product showcase website that enables clients to upload and present their offerings effectively, acting as a virtual storefront to improve visibility and drive sales.

EDUCATION

IES Doñana

Web Application Development

Honors: Graduated with highest honors (Matrícula de honor) in the degree and the final thesis (TFG).

Cádiz, Spain

June 2020
